

EZEKIEL AURELIUS LARA

TEMENOS JOURNEY MANAGER / MAESTRO LEAD | DIGITAL BANKING ENGINEERING

Boerne, Texas | ezeklara74@gmail.com | +1 (956) 800-2148 | ezekiellara.web.app | LinkedIn

PROFESSIONAL SUMMARY

Engineering leader with 20+ years delivering enterprise web, mobile, and financial technology solutions. Deep experience with Temenos Journey Maestro and Journey Manager, including secure customer onboarding, loan origination, authentication, account verification, reusable form architecture, automated workflows, and enterprise API integrations. Combines hands-on frontend and integration expertise with technical strategy, engineering standards, accessibility leadership, mentoring, production troubleshooting, and cross-functional delivery. Known for translating complex banking requirements into scalable, reliable, and accessible customer journeys.

CORE EXPERTISE

Temenos: Journey Maestro, Journey Manager, Infinity/KONY, T24, IRIS R18, reusable templates, form workflows, customer onboarding

Digital Banking: Loan origination, account verification, authentication, secure workflows, API integration, platform stability, production support

Engineering: JavaScript, TypeScript, React, Java, HTML5, CSS3, JSON, REST APIs, Apigee, IBM ESB, Git, CI/CD, cloud deployments

Leadership & Quality: Technical strategy, architecture reviews, code reviews, mentoring, Agile delivery, WCAG/ADA, ARIA, screen readers, release quality

PROFESSIONAL EXPERIENCE

Webster Bank | Frontend Engineer / ADA Lead | Jan 2025-Present | Remote

- Serve as Lead Developer for the global ADA Accessibility Initiative, defining implementation standards for semantic structure, keyboard navigation, screen-reader behavior, and focus management across enterprise banking experiences.
- Guide architecture and delivery of Journey Maestro banking forms, establishing reusable components and patterns that improve scalability, maintainability, accessibility, and release consistency.
- Partner with backend engineering, DevOps, QA, product, accessibility, and business teams to translate requirements, integrate APIs, resolve production issues, and streamline delivery.
- Provide technical reviews and issue triage for complex customer journeys while protecting platform stability and compliant user experiences.

First National Bank | Senior Web Solutions Developer | 2023-2024

- Delivered secure Journey Maestro and Journey Manager workflows supporting loan origination, customer authentication, account verification, and online and mobile banking.
- Coordinated accessible, responsive UI/UX across devices and cloud-backed services while balancing security, scalability, performance, and customer experience.
- Collaborated across engineering and business teams on service integrations, workflow behavior, testing, troubleshooting, and production-ready delivery.

Temenos | Frontend / UI Developer | 2018-2023

- Delivered Temenos Infinity Journey Maestro interfaces and reusable form templates using JavaScript, JSON, and Java, including automated workflows and enterprise API integrations.
- Built responsive financial customer journeys for onboarding and servicing across mobile and web channels.
- Contributed to Agile delivery, A/B testing, CI/CD, and cloud deployments while collaborating across frontend, backend, product, and QA teams.
- Applied accessibility and reusable engineering practices to improve consistency, usability, and release quality across complex banking applications.

Omega One Developers | iOS / Full-Stack Engineer | 2016-Present

- Lead technical decision-making across mobile and web projects, defining architecture patterns, coding standards, scalability strategies, and structured Git and release workflows.
- Mentor developers and facilitate code, UI, and architecture reviews while translating stakeholder priorities into accessible, production-ready solutions.
- Apply Swift, Flutter/Dart, frontend, API integration, and accessibility expertise to cohesive customer experiences across mobile and web channels.
